

Re: Sustainability Sponsorship by Kuehne+Nagel

Dear 'The Sundowner',

Stiftunglife is a charitable institution based in Germany, and in partnership with global logistics company Kuehne+Nagel, is dedicated to support environmental sustainability projects around the world.

We are custodians of a sustainability fund by Kuehne+Nagel, and assign it to worthwhile projects in line with their Corporate Social Responsibility initiatives. This year, Kuehne+Nagel is embarking on a 'Global Meadows' project to support the planting of trees and flowers over 80,000m², to support local biodiversity namely Birds, Bees, and Butterflies. They have funded projects in Mexico, Myanmar, Germany, and South Africa.

We are delighted to support your Bee Conservation Efforts in 2022 with a sum of USD\$10,000. This is to be used for your work in Singapore for bee rescues, development of an apiary, and planting of a native flower garden to encourage bee-friendly spaces.

We look forward to working with you in 2022 to realise this vision.

Yours sincerely

Jürgen Gessner
